Niles, MI 49120

Reference: Request for Extension of Time

Dear Mr. Fenske:

On February 27, 2019, French Paper Company (French Paper) filed a license application for the French Paper Hydroelectric Project No. 10624. On August 16, 2019, Commission staff requested that French Paper submit additional information needed to process the license application, pursuant to section 5.21 of the Commission's regulations.¹ The requested information is due by September 15, 2019.

On September 10, 2019, French Paper filed a request for a 30-day extension of time until October 15, 2019, to respond to Commission staff's additional information request. Because the extension would not significantly delay processing of the license application, your request is granted.

¹ 18 C.F.R. § 5.21 (2019).

If you have any questions, please contact Jay Summers at (202) 502-8764 or via email at jay.summers@ferc.gov.

Sincerely,

Vince Yearick
Director
Division of Hydropower Licensing
