RE: 2<sup>nd</sup> Independent Consultant's Report Review

Dear Ms. Carey,

We have completed our review of the 2<sup>nd</sup> Independent Consultant's Safety Inspection Report (Part 12D Report) for the Green Island Hydroelectric Project. The Part 12D Report, dated June 2022, was prepared by the approved Independent Consultant (IC), Mr. Kim Hansen, P.E..

Our review of the document concludes that the scope and content of the report and supplemental information satisfies the requirements of Part 12, Subpart D, §12.37 of Title 18 of the Code of Federal Regulations. The Part 12D Report was found to be prepared in general accordance with the Engineering Guidelines Chapter 14 outline provided in our reminder letter dated January 27, 2020.

The Project facilities appeared to be adequately maintained and in good operating condition. No deficiencies or dam safety concerns were observed that would require immediate remedial action. The Part 12D Report is accepted and we find that the project meets Commission Engineering and dam safety standards.

A plan and schedule to address the Part 12D recommendations has not been submitted yet. Please submit the plan and schedule within 30 days from the date of this letter. As per your letter dated July 15, 2022, revisions to the Supporting Technical Information Document (STID) will be filed under separate cover to address comments provided in our correspondence of February 17, 2022 and the Part 12D recommendations.

File your submittal using the Commission's eFiling system at <https://www.ferc.gov/ferc-online/overview>. For all Dam Safety and Public Safety Documents, select Hydro: Regional Office and New York Regional Office from the eFiling menu. The cover page of the filing must indicate that the material was eFiled. For assistance with eFiling, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), (866) 208-3676 (toll free), or (202) 502-8659 (TTY).

Your cooperation and continued interest in dam safety is appreciated. If you have any questions regarding this letter, please contact Mr. Dominick Fedele at [dominick.fedele@ferc.gov](mailto:dominick.fedele@ferc.gov) or (212) 273-5944.

Sincerely,

John Spain, P.E.  
Regional Engineer
