The Honorable Kimberly D. Bose, Secretary  
Federal Energy Regulatory Commission  
888 First Street N.E.  
Washington, DC 20426

**Subject: London-Marmet Hydroelectric Project (P- 1175-024)  
London Development – Revised Exhibit G**

Dear Secretary Bose:

Appalachian Power Company (Appalachian or Licensee), a unit of American Electric Power (AEP), is the Licensee, owner, and operator of the London-Marmet Hydroelectric Project (FERC No. 1175) (Project), an existing licensed major project located on the Kanawha River in Kanawha County, West Virginia. On June 21, 2023 Appalachian filed a non-capacity amendment application with FERC due to a revision of the Project boundary for security fencing. FERC issued an order approving the Exhibit A and Exhibit G on August 1, 2023, and requested that within 45 days of the date of issuance of the order, Appalachian file the approved exhibit drawings, Form FERC-587, and geographic information system (GIS) data in electronic file format. Appalachian hereby files the requested documents in Attachment 1 and Attachment 2. A copy of the Form FERC-587 has also been sent by mail to the Bureau of Land Management Eastern States State Office, as requested.

Thank you for your attention to this request. Please do not hesitate to contact me at (540) 985-2441 or via email at [ebparcell@aep.com](mailto:ebparcell@aep.com).

Sincerely,

Elizabeth Parcell  
Process Supervisor  
American Electric Power Service Corporation

cc: Jonathan Magalski (AEP)

**FORM FERC-587**

## INSTRUCTIONS FOR COMPLETING FORMS FERC-587

Form FERC-587 is issued to identify those project boundary maps associated with federal lands. There are two versions of the form to account for the two different ways land is surveyed in the United States, the Public Land States and the Non-Public Land States. The Public Land States version is used for projects located on the western side of the United States, and is based on the Federal Township and range system. The Non-Public Land States version is to be used for most of the projects located on the eastern side of United States, including Texas, and is based just on county information.

To complete either form you must:

1. Identify the boundary maps in the license, preliminary permit, or in the application for license, amendment of license, or preliminary permit.
2. Provide the project number assigned by FERC. Type or print legibly when entering information on the form. Include your signature, and date completing the form.
3. Electronic file format copies of the project boundary map(s), also referred to as Exhibit G drawing(s), must be submitted with the land description form(s) as directed by FERC.
4. Mail a copy of the completed land description form(s) and the electronic file format drawing(s) to:

Secretary  
Federal Energy Regulatory Commission  
ATTN: OEP/DHAC  
888 First Street NE  
Washington, DC 20426

Another copy of the form FERC-587 and electronic file format drawings must be filed with the Bureau of Land Management state office(s) involved using the format below. Go to the following internet address to get mailing address for a particular State Office (<https://www.blm.gov/office/national-office>).

State Director  
Bureau of Land Management  
City, State Zip  
ATTN: FERC Withdrawal Recordation

5. Keep the land description forms and project boundary drawings up-to-date. If the project boundary changes, revised land description forms and drawings must be provided to the Commission immediately. The revised land description forms must be fully completed so as to supersede (not supplement) earlier forms. Mail updates in accordance with instruction 4.

If there are any questions, please contact the FERC at 844-434-0053 or [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov).

6. The Commission collects this information in accordance with 16 U.S.C. 818. The Commission uses the information you provide to determine what lands of the United States will be affected, and to collaborate with the Secretary of the Interior with respect to those lands. You do not have to respond to this or any other federal agency-sponsored information collection unless it displays a valid control number.

Where to send comments on the Public Reporting Burden. The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing the

instruction, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer, CIO) or email [DataClearance@FERC.gov](mailto:DataClearance@FERC.gov); and to the Office of Management and Budget via email to the Office of Information and Regulatory Affairs at [oir\\_submission@omb.gov](mailto:oir_submission@omb.gov) (Attention: Federal Energy Regulatory Commission Desk Officer). This is a mandatory information collection requirement.

**To complete the Non-Public Land States ( Non-Rectangular Survey System Lands in Public Land States) form you need to:**

1. Identify the state in which the project is located. If the project lies within multiple states, then provide the state for the counties which the form refers. Only one state should appear on the form.
2. Provide the FERC Project Number assigned by FERC (e.g., P-100). Only one project number should appear on the form.
3. Identify the federal reservation that is located within the project boundary as shown on the maps.
4. Identify the federal land holding agency responsible for the federal land within the project boundary as shown on the maps.
5. Identify the county or counties the federal land lies in.
6. Identify whether you are completing the form for a licensed project or a preliminary permit. Identify whether the license is pending or issued. Provide an expiration date in case of a preliminary permit.
7. Complete a land description form for each federal tract with lands inside project boundaries. If more than one land description form is required to list the Federal tracts, page numbers must be shown in the upper right corner of the form, e.g., page 1 of 2. Do not list more than one project or state on each form.
8. Provide sheet numbers or letters that should be entered on the lines provided under "Exhibit Sheet Numbers) or Letter(s)" opposite to the corresponding Federal tract identification designated by the Federal land holding agency. Specify the exhibit sheet (drawing) number, or letter within the appropriate township section. If the FERC sheet numbers have been assigned, they must be used on the land description forms. In those cases where FERC has not assigned sheet numbers, assign letter designations A, B, C, etc., in lieu of FERC sheet numbers. Permittees and permit applicants must assign letter designations since FERC does not assign sheet numbers for permits.
9. Provide the name, telephone number of the person completing the form, and the date the form is submitted.

**LAND DESCRIPTION**

**Non-Public Land States  
(and Non-Rectangular Survey System Lands in Public Land States)**

1. STATE West Virginia 2. FERC PROJECT NO. 1175

3. FEDERAL RESERVATION: U.S. Army Corps Locks and Dam

4. FEDERAL LAND HOLDING AGENCY: U.S. Army Corps of Engineers

5. Counties: Kanawha

6. Check one:  
☒ License  
☐ Preliminary Permit

Check one:  
☐ Pending  
☒ Issued

If preliminary permit is issued, give expiration date: \_\_\_\_\_

7. Federal Tract(s) Identification

8. Exhibit Sheet Number(s) or Letter(s)

London Locks and Dam G, Sheet 2 of 2
